# NEWSLETTER

**August 1 through 15, 2002**

# STATE CLEARINGHOUSE NEWSLETTER

The State Clearinghouse distributes draft environmental documents to state agencies for review and comment, pursuant to the California Environmental Quality Act (CEQA). The State Clearinghouse also acts as the State Single Point of Contact for the review of federal grant applications and federal development projects. This Newsletter summarizes the environmental documents and federal grant applications received by the Clearinghouse during the period **August 1 through 15, 2002.**

## CLEARINGHOUSE CONTACTS

Please contact The State Clearinghouse if you have any questions regarding processing of environmental documents or grant applications. We may be reached at:

Telephone: (916) 445-0613  
Fax: (916) 323-3018  
e-mail: [state.clearinghouse@opr.ca.gov](mailto:state.clearinghouse@opr.ca.gov)  
website: [www.opr.ca.gov/clearinghouse.html#clearinghouse](http://www.opr.ca.gov/clearinghouse.html#clearinghouse)

Questions regarding federal grant notices should be directed to Sheila Brown.

Questions regarding processing of environmental documents should be directed to:

Gregoria Garcia (for projects in Northern California)  
Becky Frank (for projects in Southern California)

## CLEARINGHOUSE MAILING ADDRESS

Please do not use our street address (1400 Tenth Street, Room 222) for mailing purposes. The correct mailing address is:

STATE CLEARINGHOUSE  
P.O. BOX 3044  
SACRAMENTO, CA 95812-3044

## INFORMATION AVAILABLE ON-LINE

The 2001 CEQA Guidelines are available from the Resources Agency's website at <http://ceres.ca.gov/ceqa/>.

The State Clearinghouse Handbook, which contains all of our environmental document and grant processing procedures and forms, is available on our website.

Ms. Terry Roberts  
Director, State Clearinghouse  
Office of Governor Gray Davis  
Planning and Research  
1400 Tenth Street  
Sacramento, CA 95814

Dear Ms. Roberts:

The California Department of Transportation (Department) hereby submits this notice for Intergovernmental Review (IGR) process purposes for projects in the 2002 Federal Statewide Transportation Improvement Program (FSTIP). These projects are referenced in the Federal Transportation Programming documents adopted by the Metropolitan Planning Organizations (MPOs) shown on the attached list.

If you have any questions or would like to obtain copies of these documents, please contact Kris Balaji, Chief, Office of Federal Transportation Management Program, at (916) 654-2983.

Sincerely,

**Original Signed By**

JIM NICHOLAS  
Chief  
Division of Transportation Programming

Enclosures

c: Bob Garcia

# CEQA & Planning Case Law

## Summary of Recent CEQA & Planning Case Law

The following are summaries of recent court cases relating to the California Environmental Quality Act and/or land use planning law.

**No Cases have been selected for the period of August 1-15, 2002.**

*Please be advised, the information contained in these summaries does not constitute legal advice, nor should the summaries be relied upon as a matter of law. Refer to the full text of the cases cited for the complete ruling and case facts.*

DATE: AUGUST 12, 2002  
TO: ALL CEQA LEAD AGENCIES  
FROM: TERRY ROBERTS, STATE CLEARINGHOUSE  
RE: CONFIRMATION OF RECEIPT FOR NOTICES OF DETERMINATION

We regret to inform you that the State Clearinghouse will no longer be able to honor requests for written confirmation of the posting of a Notice of Determination (NOD) or Notice of Exemption (NOE) with the Governor's Office of Planning and Research (OPR). In the past, and as a courtesy, we were able to comply with requests for written confirmation. However, due to recent budget cuts and an increasing volume of special requests, we can no longer provide such confirmation, either by mail or by fax.

Sections 15075 and 15094 of the CEQA Guidelines spell out the responsibility of the State Clearinghouse to post NODs. Section 15062 (c) of the Guidelines spells out the responsibility of the SCH to post NOEs. We realize the importance of timely posting because this begins a statute of limitations on court challenges. OPR will continue to post NODs and NOEs in a timely manner and enter the notice information in our online CEQAnet database.

If you fax a NOD or NOE to the State Clearinghouse, please retain the fax confirmation for your records. If you file a NOD or NOE with us in person, please provide a second copy of the document and we will at that time be happy to date stamp and return it to you immediately. If you mail a NOD or NOE to us, you may call the State Clearinghouse at (916) 445-0613 to request verbal confirmation of receipt, or obtain written confirmation of posting by printing a report from the CEQAnet database at [www.ceqanet.ca.gov](http://www.ceqanet.ca.gov).

We apologize for any inconvenience this may cause and will continue to provide the best possible service to the public within our means.

# CEQA Documents

## Key for abbreviations of Document Type:

CON	Early Consultation Notice
EIR	Draft Environmental Impact Report
SIR	Supplemental EIR
SBE	Subsequent EIR
EIS	Draft Environmental Impact Statement
EA	Draft Environmental Assessment
JD	Joint Document (CEQA/NEPA)
FONSI	Finding of No Significant Impact
Neg Dec	Negative Declaration/Mitigated Negative Declaration
NOE	Notice of Exemption
NOD	Notice of Determination
NOP	Notice of Preparation (of an EIR)
Oth	Other type (none of the above)

## CEQA Actions

SCH Number	Title / Lead Agency / City--County / Description	Document Type	Ending Date
<b><u>Documents Received on Thursday, August 01, 2002</u></b>			
2002011024	2000 Avenue of the Stars ENV-2001-4027-CU Los Angeles City Planning Department Los Angeles, City of--Los Angeles Demolition of 678,822 square feet of commercial space located within 2 eight story buildings, to be replaced with the construction of a 15 story building with 719,924 square feet of office, 30,527 square feet of restaurant, 18,318 square feet of retail, and 10,178 square feet of cultural space for a total of 778,947 net square feet of development.	<b>EIR</b>	09/16/2002
2002051154	General Plan Update-2002 Wasco, City of Wasco--Kern The proposed project includes an update of the City of Wasco's General Plan. The proposed Project Area is comprised of approximately 51,062 acres, and contains a mixture of residential, agricultural, commercial and industrial land uses. The General Plan will include Land Use, Conservation and Open Space, Agriculture, Circulation, Housing, Safety, and Noise Elements. The City is establishing a 50-year growth boundary to guide future growth of the City in its planning area.	<b>EIR</b>	09/16/2002
2002081006	Rosemead Redevelopment Project Area No. 1, Amendment 4 Rosemead, City of Rosemead--Los Angeles Project proposes to amend the existing Rosemead Redevelopment Project Area No. 1. This will entail adding 5.3 acres of land to the existing project area. The 5.3-acre Amendment Area includes two parcels totaling 2.1 acres and 3.2 acres of connecting public right-of-way. The adoption of the Plan Amendment will allow the Agency to provide public improvements with the Amendment Area.	<b>JD</b>	08/30/2002
2001041105	Imperial Irrigation District New 230 kV "BN-BS" Transmission Line Imperial Irrigation District Blythe--Riverside The IID and the U.S. Department of the Interior, Bureau of Land Management (BLM) are preparing to assess the environmental effects of constructing, operating, and maintaining a new, approximately 118 mile long, transmission line from a new substation/switching station located on the north side of Hobsonway, west of the Blythe Power Plant, approximately 4.5 miles west of Blythe, California, to Southern California Edison's Devers Substation, approximately 10 miles north of Palm Springs. The proposed project will operate at either 230-kV or 500-kV and will provide increased transmission line capabilities from the proposed new substation/switching station on Hobsonway to the Devers Substation to meet transmission requests.	<b>NOP</b>	08/30/2002
2002081002	Silverado Canyon Ranch (Tentative Tract Map 16191) Orange County --Orange The proposed project consists of a 12-lot residential estate program, averaging 5.3 acres per lot. Building envelopes range between 1 acre and 3.8 acres, averaging 1.8 acres. The entire project is 68.74 acres. Existing drainage courses have been retained to the maximum extent feasible. A "first flush" retention basin is proposed on Lot 1 to maintain surface water quality.	<b>NOP</b>	08/30/2002

## CEQA Daily Log

Documents Received during the Period: 08/01/2002 - 08/15/2002

SCH Number	Title / Lead Agency / City--County / Description	Document Type	Ending Date
<b><u>Documents Received on Thursday, August 01, 2002</u></b>			
2002081004	<p>Yorba Linda High School Project Placentia-Yorba Linda Unified School District Yorba Linda--Orange</p> <p>The District proposes to acquire the project site to construct a new comprehensive high school serving approximately 2,000 students. A portion of the proposed high school site is part of the existing continuing education center, while remaining areas are included in the Tentative Tract No. 16208 of the proposed North Yorba Linda Estates project. The North Yorba Linda Estates project is a primarily residential development involving three tentative tracts (i.e. 16208, 16209 &amp; 16264) totaling 1590.5 acres. Tentative Tract Nos. 16208 and 16209, designated as Site A and B, respectively, are contiguous parcels while Tentative Tract No. 16264, Site C is located north of Via Lomas de Yorba in the Hidden Hills area, approximately eight miles to the east. (Sites A and B are visible on Figure 2, Proposed School Site; Site C is located east of the area shown on the figure).</p>	<b>NOP</b>	08/30/2002
2002082001	<p>Modification of City of San Jose's Transportation Impact Policy San Jose, City of San Jose--Santa Clara</p> <p>The project consists of a modification of the City of San Jose's Transportation Impact Policy to exempt certain intersections from traffic mitigation requirements. The City has identified eleven intersections at which improvements beyond a specific amount already built or under construction would result in potentially significant adverse impacts. According to the proposed Traffic Impact Policy, a project's traffic improvements would be unacceptable if the improvement would result in a physical reduction in the capacity and/or substantial deterioration in the quality (aesthetic or otherwise) of any other planned or existing transportation facilities (such as pedestrian, bicycle and transit systems and facilities).</p>	<b>NOP</b>	08/30/2002
2001081077	<p>Valley Environmental Process Station No. 01-22 El Centro, City of El Centro--Imperial</p> <p>The Project proposes the intensification of an existing recycling center operation to allow the facility to operate at a full Solid Waste Facility permit level.</p>	<b>Neg</b>	08/30/2002
2002081001	<p>Palo Verde Expansion University of California, Irvine Irvine--Orange</p> <p>Proposal of 448 apartment units and associated parking and amenities (laundry, etc.) on a 14 acre site adjacent to the existing Palo Verde Graduate Student Apartment complex. Associated revision to LRDP EIR Mitigation Measure.</p>	<b>Neg</b>	08/30/2002
2002081005	<p>Bender Commercial Development Santa Paula School District Santa Paula--Ventura</p> <p>Construction of a 49,440 s.f. commercial residential building on a 4.92 acre site.</p>	<b>Neg</b>	08/30/2002
2002082002	<p>PLP 02-0002 (ACC/LLA), Locatelli Sonoma County Permit and Resources Management Department Windsor--Sonoma</p> <p>Lot Line adjustment between two parcels 19.9 acres and 60 acres in size, resulting in two parcels 10 acres and 69.9 acres in size.</p>	<b>Neg</b>	08/30/2002

<b><u>Documents Received on Thursday, August 01, 2002</u></b>			
2002082003	Lawyer Borrow Pit Mining and Geology Board, Department of Conservation Colma--El Dorado Amended reclamation plan for the Lawyer Borrow Pit, pursuant to the Surface Mining and Reclamation Act of 1975.	<b>Neg</b>	08/30/2002
1986111201	ALISO AND WOOD CANYONS REGIONAL PARK GENERAL PLAN DEVELOPMT Orange County SAA #5-0328-00 Alter the streambed in order to respond to a Restoration Order issued by the County at four locations along Wood Canyon Creek. The four locations where the repair activities occurred are referred to as Dip Crossing 1. East Side Riprap, and Dip Crossing 2. The Corrugated Metal Pipe (CMP) Culvert is a new project addressed under this Agreement. At the Dip Crossing 1 site, the area to be revegetated totals approximately 0.99 acre as revised. At the East Side Riprap site, the area to be revegetated totals approximately 0.30 acre. At the Dip Crossing 2 site, the area to be revegetated totals approximately 0.09 acre. At the C.M.P. Culvert site, the existing culvert and earthen plug will be removed, and a gabion wall will be constructed.	<b>NOD</b>	
1992052017	Orville Wright Neighborhood Park Modesto, City of Modesto--Stanislaus This is an application for an amendment to P-D (501) to allow for the development of a 14,754 square foot retail store/office space and a 2,580 square foot storage facility with 55 parking stalls. There are no driveways proposed; the development will be accessed through a reciprocal access agreement with the adjacent parcels. The retail/office building is proposed set back 74.5 feet from the property line.	<b>NOD</b>	
1992052017	Orville Wright Neighborhood Park Modesto, City of Modesto--Stanislaus This is an application for a conditional use permit to develop a 39,453 square foot parcel into a 9,900 square foot office building with 44 parking spaces and a landscaped island on the south end of the parcel. The building is proposed to have three suites, one to be occupied by the applicant, one by a dentist and the third by a realtor.	<b>NOD</b>	
1992102052-2	City of Santa Clara General Plan Santa Clara, City of --SANTA CLARA Adoption of amendments to the City of Santa Clara General Plan, consisting of updates to the Housing Element and the Land Use Element of the General Plan. Adoption of the 2002-2010 update of the Land Use and Housing Elements will establish that the City has the capacity for the construction of up to 11,291 housing units between July 1, 1999 and January 1, 2011, primarily through Mixed Use developments. More than 6,339 of these units could be constructed by the end of 2006, consistent with the City's Fair Share Numbers as determined by the association of Bay Area Governments. Of the 6,339 units, 1,294 units should be affordable to very low income households, 590 units should be affordable to low income households, and 1,786 units should be affordable to moderate income households.	<b>NOD</b>

2002088005	<p>Lease for Relocation of the Concord Cal-Vet District Office to Fairfield Veterans Affairs, Department of Fairfield--Solano</p> <p>The Department of Veterans Affairs would lease office space at 490 Chadbourne Road, Suite D, in the City of Fairfield, California to relocate the Concord Cal-Vet District Office. The leased space is approximately 3,400 square feet in size, and will accommodate 8 employees. Approximately 20 visitors/clients will be seen at the office weekly. Parking spaces are arranged and maintained so as to provide unobstructed access at any time and equal access on a first-come, first served basis. The location is easily found by the public, near major freeway exists and close to many veterans (customer base). The proposed lease space is a newly constructed office site and there will be no storage of chemicals or hazardous materials on site.</p>	<b>NOE</b>	
2002088006	<p>Streambed Alteration Agreement (5-2002-0196) Regarding the Annual Maintenance of the Sim's Pond Preserve Fish &amp; Game #5 Long Beach--Los Angeles</p> <p>The operator proposes to alter the streambed and banks by manually removing invasive species and periodic trimming of native vegetation to provide for adequate flow of water within Sim's Pond, tributary to an unnamed drainage to the Pacific Ocean. Maintenance of the Sim's Pond Preserve shall also consist of clearing of inflow channels and the periodic removal of trash and debris from within and around the pond. Planting of native riparian vegetation shall occur at the north end of Sim's Pond in accordance with the final Department approved plant palette proposed by the project description. This Agreement shall be for the duration of 5 years for annual maintenance of the pond.</p>	<b>NOE</b>	
2002088007	<p>Issuance of an Entry Permit to the City of Riverside to Property Along the Box Springs Feeder Metropolitan Water District of Southern California Riverside--Riverside</p> <p>Metropolitan proposes the issuance of an entry permit to allow the City of Riverside to construct a 12-inch diameter pipeline across the Box Springs Feeder right-of-way (Parcel Nos. 1610-3-9 and 1610-3-13).</p>	<b>NOE</b>	
2002088008	<p>Installation of Interior Environmental Monitoring, Control, &amp; Protection Improvements for Remote Computer Facilities Metropolitan Water District of Southern California --</p> <p>Metropolitan proposes the installation of interior environmental monitoring, control, and protection for 15 selected IT computer server rooms throughout the Metropolitan service area and at four remote telecommunications sites. Improvements will include, as appropriate, fire, smoke, moisture, temperature detectors and alarms, gas-based fire suppression systems, and minimal room and hearing, ventilating, and air conditioning system modifications.</p>	<b>NOE</b>

2002081015	Cabazon Fantasy Springs Resort Cabazon Band of Mission Indians Indio--Riverside In order to enhance its existing economic base for the benefit of tribal members, the Cabazon Band proposes to proceed with development of the following facilities on the northern portion of the Reservation. Renovation and 15,000 s.f. expansion of the existing casino to accommodate an additional 700 slot machines and provide for expanded bingo facilities. A 250-room 12-story hotel with lobby-level 24-hour restaurant/cafe, lobby bar, top floor lounge, and swimming pool. An 800 space 4-level parking garage and additional unloading space to accommodate an increased bus program. Climate-controlled walkways connecting the hotel and parking with the casino featuring small indoor retail spaces and outdoor pools and specialty water features.	EA	09/04/2002
1998071109	Mojave-Rosamond Sanitary Landfill Kern County Waste Management Department Applications are repermit of the existing landfill with a permitted tonnage of 470 tons per day, change facility boundary to encompass 253 acres, include operations of an unloading building, General Plan Amendment from "extensive agriculture" to "solid waste" for 173 acres, zone change from A- to A for 213 acres, circulation amendment to delete a one-mile segment of Lone Butte Road, construct a 20-acre borrow pit and a 1.5 acre drainage sump. Lot line adjustment, street vacations, and revisions to the existing landfill conditional use permit.	EIR	09/16/2002
2000121036	The Preserve - Chino Subarea 2 Chino, City of Chino, Chino Hills, Ontario, Norco, Corona--San Bernardino The proposed project includes the annexation of the largest remaining portion of the Chino Valley Dairy Preserve within the City of Chino's Sphere of Influence to allow for development of a portion of the approximate 5,435 acres currently within the Preserve. The City of Chino is preparing a master plan to guide the future development and annexation of the Preserve. The master plan will consist of a comprehensive, specific plan/land use plan. An 'umbrella' General Plan Amendment, which will link the specific plan to the City's existing General Plan and satisfy the requirement for consistency with the General Plan, will also be prepared. The General Plan Amendment will be an Area Plan, as authorized by Government Code Sections 65301 (b) and 65303.	EIR	09/16/2002

<b><u>Documents Received on Monday, August 05, 2002</u></b>			
1992052017	Orville Wright Neighborhood Park Modesto, City of Modesto--Stanislaus This is an application for a conditional use permit to develop a 39,453 square foot parcel into a 9,900 square foot office building with 44 parking spaces and a landscaped island on the south end of the parcel. The building is proposed to have three suites, one to be occupied by the applicant, one by a dentist and the third by a realtor.	<b>NOD</b>	
1999062089	American River Pump Station Project Placer County Water Agency Auburn--Placer The Proposed Project involves construction of a year-round pump station, intake/diversion and associated pipelines and access road facilities to provide PCWA improved and reliable access to its Middle Fork Project water rights water. The project is needed to provide a reliable back-up source to PCWA's other water supply sources and to meet growing demands associated with planned and approved urban development within their service area. The new pump station would permit PCWA to increase their water supply diversions from the historical maximum amount of 8,500 AF and from the anticipated No Action/No Project Alternative amount of 19,300 AF to 35,500 AF. Additionally, the Proposed Project would restore the North Fork American River flow to a 3/4-mile stretch of river that is currently dewatered and flowing through the Auburn Dam construction site bypass tunnel. The return of water to the river channel is anticipated to result in use of the project area for water-based recreation activity (primarily boating) and so, the Proposed Project also includes development of two public river access sites. The access locations would be at the Auburn Dam site upstream of the bypass tunnel outlet, and near Oregon Bar. The proposed amenities include parking, road and trail improvements to accommodate mixed recreation uses, a staffed entrance gate, and sanitation facilities (restrooms and trash cans). CDPR would oversee the use of these areas per an agreement with Reclamation.	<b>NOD</b>	
1999092073	Marin Public Safety & Emergency Communications Radio System Marin Emergency Radio Authority San Rafael--Marin, Sonoma Construction, installation, operatin and maintenance of a wireless communication facility for public agency and emergency use.	<b>NOD</b>	
2001031111	San Sevaine Channel Stage 7 Flood Control Project Riverside County Flood Control and Water Conservation --Riverside The proposed project consists of the construction, operation, and maintenance of a concrete lined flood control channel. The proposed channel will provide 100-year flood protection to existing public roads, the Union Pacific Railroad, utilities, and an area of dense residential development by connecting two reaches of existing channel. The proposed channel configuration consists of approximately 2,220 lineal feet of concrete lined rectangular channel, and approximately 2,910 lineal feet of concrete lined trapezoidal channel. The trapezoidal channel will have a bottom width of 44 feet, and a total top width of 80 feet. The rectangular channel will be 42 feet wide. The total length of the proposed channel is 5,130 lineal feet.	<b>NOD</b>

2001041051	Mission and Meridian Mixed-use Transit Oriented Development Project EIR South Pasadena, City of South Pasadena--Los Angeles Construct a Mixed Use Transit Oriented Development including: 1) 67 residential units; 2) 4,000 square feet of retail space; and 3) a 324-spaces subterranean garage on two levels, on a 72,750 square foot lot.	<b>NOD</b>	
2001061065	County of Monterey/Old Jail Demolition Monterey County Planning & Building Inspection Salinas--Monterey Demolition permit issuance for the old Monterey County Jail.	<b>NOD</b>	
2002041006	St. Martha Catholic Parish Sanctuary Building Murrieta, City of Murrieta--Riverside SAA #6-2002-079 The applicant proposes to alter an unnamed tributary to Murrieta Creek, to construct a 22,500 square foot one-story sanctuary building capable of seating 1,446 people, a paved parking lot providing 477 full sized spaces, and associated improvements on the approximately 11.4 acre site. The proposed improvements include filling an ephemeral stream channel by extending through the Project an existing underground storm drain system approximately 610 linear feet from the north property boundary to the southern part of the property. The project proposes to create a riparian habitat in the southeastern corner of the property, which will connect an existing mitigation area to an additionally proposed mitigation area on City-owned property to the south of the Project.	<b>NOD</b>	
2002051025	Westar Mixed Use Commercial Complex Lompoc, City of Lompoc--Santa Barbara A request to subdivide a 17.04 acre parcel into six parcels for future development.	<b>NOD</b>	
2002051115	Elliot Field Station Structural Engineering Field Test Laboratory University of California, San Diego La Jolla--San Diego Project would be constructed in two phases of development. The first phase would consist of the bridge abutment testing operation to observe soil foundation structural interaction. This phase would also include site grading, creation of an open storage area, and the construction of new access to the site from the Elliott Field Station main access road. A temporary trailer and generator will be placed on the site to support this research until Phase II is implemented. The second phase would consist of development of a high performance outdoor shake table and high energy impact simulator to be used for seismic and materials testing. Phase II would also include the construction of one or two buildings with a total size of approximately 4,000 gsf to house office space/ control room and power supply equipment, as well as utility installation.	<b>NOD</b>	
2002061034	Orange County Groundwater Storage Basin Conjunctive Use Program Orange County Water District Orange--Orange The groundwater storage program would provide for 60,000 acre feet (af) of excess Metropolitan Water District of Southern California (Metropolitan) surface water to be delivered via existing connections and stored in the in the Orange County groundwater basin when available. When called by the Metropolitan during shortages of imported water, 20,000 af per year would be extracted from the Orange County groundwater basin and decrease by an equivalent amount the	<b>NOD</b>

	demand for Metropolitan firm deliveries; thereby, making additional Metropolitan firm deliveries available to the region.		
2002062073	Hushbeck/Atri Stormwater Pump Station Watsonville, City of Watsonville--Santa Cruz The project consists of the construction of the new Hushbeck/Atri Storm Water Pump Station at Hushbeck Avenue and Atri Court replacing two old pump stations that do not have adequate capacity to prevent flooding during even moderate amounts of rainfall when Salsipuedes Creek is flowing at high levels. The new pump station will have two 40 cfs pumps. The old Atri Pump station had two 5,700 gpm pumps and the old Hushbeck Pump Station had one 4,000 gpm pump. The old Atri Pump Station will be converted into a storm drain box with a new 42-inch pipeline running along the outside of the creek levee connecting it to the new pump station. The old Hushbeck Pump station will be demolished. Two new outfalls will be constructed through the levee from the new pump station replacing the old outfalls. Also, a small building approximately 350 square feet will be built to house the electrical and control panels and a generator.	<b>NOD</b>	
2002089012	Streambed Alteration Agreement R3-2001-0836/THP 1-00-321SON Fish & Game #3 --Sonoma SAA R3-2001-0836 The applicant proposes the diversion of water from a perennially flowing class II watercourse for road dust abatement during timber harvest operations. To divert the water, a water drafting pool will be excavated in the wetted stream channel.	<b>NOD</b>	
2002089013	Streambed Alteration Agreement for Tract 29032 Project Riverside County Planning Department Lake Elsinore--Riverside SAA 6-2002-075 The proposed project will alter the streambed to construct a 128-unit residential community, including four on-site detention basins and an open space lot, within a 35.8 acre site in the unincorporated Lake Elsinore area. The project will include minor recontouring of the drainage and the placement of rip rap to prevent erosion. A grouted rip rap energy dissipater will be placed near the downstream terminus of the drainage, adjacent to the existing off site concrete stabilization. The drainage has been incorporated within the open space lot. Project impacts are estimated at 0.09 acre of jurisdictional waters, all of which are permanent. The Operator will mitigate at a 3:1 replacement to impact ratio for the permanent loss to streams and its associated riparian habitat with the creation of a 0.27 acre of riparian woodland habitat on site.	<b>NOD</b>	
2002089014	Richmond Transit Village Transportation Commission Richmond--Contra Costa The Transit Village will consist of 63 single aspect townhouses, 79 standard townhouses, and 89 live/work townhouses for a total of 231 dwelling units. In addition, the Transit Village includes approximately 21,000 square feet of retail space, an approximate 30,000 square foot performing arts center, a 37,000 square foot intermodal station including a police station, and a 5-level 680 (with possible 800) space parking structure to replace existing BART parking lots.	<b>NOD</b>

**Documents Received on Tuesday, August 06, 2002**

2001101125	Redevelopment Plan for the Adelanto Improvement Project No. 3 Adelanto, City of Adelanto--San Bernardino The need to establish a Project has been deemed necessary for the purposes of i) providing adequate roadways and related infrastructure, ii) increasing employment opportunities, iii) funding improvements to community facilities and public utilities, iv) promoting aesthetic and environmental actions and improvements, and v) providing additional affordable housing opportunities. Which purposes will generally improve the quality of life for residents, businesses and property owners within the territory included in the Project (the "Project Area") and the City of Adelanto as a whole. While not proposed as specific projects at this time, these actions are possible activities that may be undertaken over the 30-year effective life of the plan.	<b>FIN</b>	
1999032075	800 High Street Creamery Associates Palo Alto, City of Palo Alto-- Application by Curt Peterson and Doug Ross of High Street Partners to allow a zone change from Downtown Commercial Service with Pedestrian Overlay (CD-S(P)) to Planned Community (PC) and to allow the demolition of an existing 17,632 square foot building and to allow the construction of 61 residential units, approximately 1,700 square feet of neighborhood serving retail space, a subterranean parking garage and related site improvements.	<b>NOP</b>	09/04/2002
2002082020	San Luis Reservoir Low Point Improvement Project Santa Clara Valley Water District --Santa Clara Recognizing the need to resolve the low point problem, the Low Point Improvement Project was included in the August 28, 2000 CALFED Bay-Delta Program's Programmatic Record of Decision as a complementary conveyance action. The low point problem currently creates water quality, reliability, and operational impacts on the District, other San Felipe Division contractors, the CVP, and the SWP. This condition can: (1) cause taste and odor problems, (2) become difficult or impractical to treat, (3) foul drip irrigation systems, and/or (4) eliminate the possibility of delivering any water to the San Felipe Division. The results of these impacts are additional operating costs, risks to public health and safety from interruption in water supply, and economic losses to agriculture and industry. There are also significant opportunity costs to the CVP and SWP as a result of their inability to fully utilize all of the available storage in the reservoir. These impacts will increase in the future as the low point occurs more frequently and for a longer duration. The following summary of the Problem Definition Statement includes information on San Luis Reservoir, current and future operations, and impacts on users.	<b>NOP</b>	09/04/2002
2002081032	Castaic Lake Water Agency 2002 Groundwater Banking Project Castaic Lake Water Agency --Los Angeles, Ventura, Kern Castaic Lake Water Agency (CLWA) proposes to take delivery of its total State Water Project (SWP) allocation and deliver a portion of that water that is not	<b>Neg</b>	09/04/2002

	needed to meet its anticipated demands in 2002 to the Semitropic Water Storage District (SWSD). SWSD would temporarily store up to 24,000 acre-feet (AF) of CLWA's unused 2002 SWP deliveries for later withdrawal and delivery to the CLWA service area in a future year or years. The 24,000 AF would be stored in the SWSD Groundwater Banking Project using SWSD's existing groundwater banking facilities. SWSD may use this 24,000 AF of SWP water in lieu of pumping groundwater for irrigation or to directly recharge the underlying groundwater basin. Upon request, SWSD would return CLWA's previously stored 24,000 AF of SWP water in one or more years by either (1) pumping the water from its groundwater basin through pumpback facilities into the Edmund G. Brown California Aqueduct, at which time the water would become part of the SWP water supply pool and would be conveyed to CLWA; or (2) by requesting that an equivalent amount of SWSD's SWP water be delivered to CLWA. Storage of the 24,000 AF of SWP water, under the proposed project, would not require the construction of new facilities, or the improvement of any existing facilities within the CLWA or SWSD service areas.		
2002082021	Chandler MNS 01-0040 Sonoma County Permit and Resources Management Department Petaluma--Sonoma Subdivision of 28.42 acres into two lots both 2 acres in size and a designated remainder of 24.42 acres in size.	<b>Neg</b>	09/04/2002

2001081141	<p>Save On/Live Work Lofts EIR Santa Ana, City of Santa Ana--Orange</p> <p>The proposed project includes the removal of the two existing buildings on the project site to develop a 14,842 sf. Sav-on drug store and four live/work lofts. The two proposed uses will be located in one building that will be attached in the northern portion of the site. The proposed Sav-on drug store will be one story and have a maximum height of 32 feet. The store will be located on the eastern portion of the project site. A total of 47 parking spaces will be provided onsite for the store. The proposed Sav-on store includes the sale of liquor and will operate 24 hours per day. The proposed Live/Work Lofts are two stories and includes 5,737 sf. The lofts include 2,107 sf. on the first floor and 3,630 sf. on the second floor. The maximum height of the proposed lofts is 35 feet. The studios are located on the first floor and the living areas are located on the second floor. Each loft unit includes approximately 900 sf. of living area. The purpose and objectives of the proposed and objectives of the proposed project include (1) to construct a retail drug store that meets the minimum size requirements to allow it to be economically viable, (2) to construct a retail drug store at the corner of arterial streets that maximizes both vehicle and pedestrian pass-by traffic to allow it to be economically viable, and (3) to construct buildings on the site that have heights and architectural features consistent with the surrounding buildings. The beneficiaries of the project include the project applicant (Albertsons) as well as residents in the project vicinity.</p>	<b>EIR</b>	09/20/2002
1997091051	<p>Parkside Estates EIR No. 97-2 Huntington Beach, City of Huntington Beach--Orange</p> <p>Draft Environmental Impact Report (DEIR) No. 97-2 was circulated for public comment in 1998. Prior to completion of the final EIR and its certification, new information affecting the project became available. The New Alternatives to the DEIR document consists of alternatives that combine the Reduced Density Alternative Concept requested by City staff, with revised floodplain elevations, in response to the release of a revised Flood Insurance Rate Map (FIRM) Issued by FEMA on June 14, 2000 and the submittal of a Conditional Letter of map Revision (CLOMAR) to FEMA by Shea Homes in February 2001. These four alternatives include two alternatives which are based on the FEMA 2000 floodplain elevations and two alternatives which are based on lower pad elevations. These alternatives also address the Coastal Commission decision in November 2000, which modified the 4.5-acre County parcel designation to "coastal conservation," although the decision is on appeal.</p>	<b>FIN</b>

2002081046	Patton State Hospital Double Perimeter Fence Project and Temporary Increase in Patients and Staff Corrections, Department of San Bernardino, Highland--San Bernardino A new double perimeter fence that will replace the existing security fence and include installation of improved security lighting, closed circuit television cameras, and a strain-sensitive cable sensor system. The modernized security will include construction of 13 new ground guard posts to replace existing ground guard posts (the existing guard tower will be retained.) A temporary increase in patients and staff is being proposed by DMH for up to 250 additional patients (and approximately 250 to 300 staff over 3 shifts) that may be brought to Patton State Hospital from January 2003 until one year after a new DMH facility opens in Coalinga. The proposed patient/staff increases would include installation of up to 16 modular buildings within the two secure areas of the hospital and the conversion of some office/treatment space in existing buildings in to living space for patients. An upgrade of the hospital's high-voltage electrical system as the electrical system at Patton State Hospital is operating at capacity. The upgrade of the high voltage electrical system would consist of replacing 54 distribution transformers throughout the hospital facilities and increasing the system from 2,400 volts to 4,160 volts.	<b>NOP</b>	09/09/2002

	accessibility for the disabled, some infrastructure improvements will include: a road and trail system, potable and non-potable water lines, vault toilets, drinking fountains, a parking area, perimeter fencing, seasonal canoe docks, access to the river for swimming and water play, underground electrical facilities, landscape irrigation facilities, security and minimal access lighting facilities, a plant and tree nursery, a weather monitoring station, water quality monitoring points, improvements to existing landscape irrigation facilities and landscape screening along the southern property line. A central pond may be developed. Other infrastructures, such as waste-collection containers, signage, firebreaks and emergency access will also be provided. The landscape and riparian enhancement portion of the project will involve construction of two creek crossings for access across Pirates Creek, planting native trees for shade and native riparian enhancement following the natural drainage patterns of the site, phased replacement of non-native trees with native trees, control of non-native plant species, and possible elderberry bush enhancement area.		
2002082026	City of Redding Parks, Trails, and Open-Space Master Plan Redding, City of Redding--Shasta The project is the adoption of a comprehensive parks, trails, and open-space master plan for the City of Redding. It will implement the General Plan by setting forth a plan to acquire, develop, and maintain at least 10 acres of parkland for each 1,000 residents as called for in the General Plan. Further, it provides location parameters for parkland acquisition, establishes standards for park development, addresses maintenance of facilities, and provides a schematic trail system that will guide development over the next 20 years. The open-space component includes 12 open-space study areas that are intended to be the initial focus of the City's open-space efforts.	<b>Neg</b>	09/09/2002

Sonora--Tuolumne Rezone (96-RZ-020), Tentative Subdivision Map (96T-065) and Development Agreement (96DA-007) to develop a 110-lot subdivision (including one water tank lot and one park lot).	<b>NOP</b>	09/10/2002
2002082039	Vernalis Expressway Caltrans #6 --San Joaquin, Stanislaus Caltrans is proposing to construct a four-lane divided expressway on the same alignment as the existing conventional two-lane roadway from the State Route 132/33 Separation Overhead (Br# 29-167L) in San Joaquin County to 0.16 km west of the San Joaquin River Bridge (Br# 38-45) in Stanislaus County. Route 132 between I-580 and the San Joaquin River, of which this project is a portion, was adopted as a freeway by the California Highway Commission (CHC) in 1961. In March 1992, the CTC mandated a "Special Study" of Route 132 between I-580 and Route 99 to "develop a long-range plan to identify projects, estimate costs, and recommend priority sequence for construction of an expressway (with potential for a future freeway) before nominations for the 1994 STIP." The study was initiated in 1993 and was revised for the 1998 STIP to reflect current projects proposed for the Route 132 corridor between I-580 and Route 99. In July 1999, a Major Investment Study (MIS) was also completed for the State Route 132 corridor west of State Route 99.	<b>NOP</b>	09/10/2002

2002082030	Waddell Family Reclamation Plan Siskiyou County Planning Department --Siskiyou The Waddell family proposes a Reclamation Plan for their gravel quarry near the community to Happy Camp. The quarry and associated activities were approved by Use Permit in 1974. An Environmental Impact Report was also certified at that time. At the time of approval, reclamation plans were not required; however, the State Surface Mining and Reclamation Act (SMARA) and County Code have been amended to require an approved Reclamation Plan for all quarries where an approved plan is lacking. The Waddell plan, if approved, would bring their quarry into compliance with these statutes. Activities are proposed to conclude and reclamation begin in 2017, 15 years from approval of the Reclamation Plan.	<b>Neg</b>	09/10/2002
2002082031	Siegfried Conditional Use Permit 00CUP-27, Grading Permit G2000-15 & Certificate of Compliance Tuolumne County Community Development Dept. --Tuolumne Conditional Use Permit (00CUP-27) to allow a private airplane landing strip and an access roadway to serve that airstrip on a portion of a 902+/- acre Remainder of Parcel Map 35-47, which is zoned AE-37 (Exclusive Agricultural, thirty-seven acre minimum) under Title 17 of the Tuolumne County Ordinance Code (TCOC) and under a Williamson Act Land Conservation Contract. Grading Permit (G2000-15) to allow the construction of a 2,490-foot long by 40-foot wide private landing strip, a 3,550-foot long extension of a driveway for an access roadway to serve the landing strip, widening the access roadway to 12 feet in width, and a 1.6+/- acre mitigation wetland to be constructed near the landing strip on a portion of the 902+/- acre Remainder of Parcel Map 35-47. Certificate of Compliance for the 902+/- acre Remainder of Parcel Map 35-47, which was a lot line adjustment of eight (8) reconfigured parcels, plus the Remainder.	<b>Neg</b>	09/10/2002

2001081114	<p>Wilson Property Telecommunications Site San Diego County Department of Planning and Land Use Vista--San Diego</p> <p>The project is a wireless telecommunications transmitting facility consisting of up to 6 panel antennas, each of which is 4 to 6-feet in length and 8-inches wide, mounted on a 35-foot high monopalm. The associated radio, power, and telephone equipment will be housed in an enclosure to be constructed near the base of the monopalm. The enclosure will consist of a 3-foot high CMU block wall stepped to match the slope. The equipment will be placed on a 12-inch high concrete slab. Total area leased for this project is 100 square feet located at the rear yard of the residential lot. Landscaping is proposed to screen the enclosure.</p>	<b>NOD</b>	
2001082108	<p>Shasta Mountain Recreational Vehicle Park Weed, City of Weed--Siskiyou</p> <p>A Conditional Use Permit to allow development of the Shasta Mountain Recreational Vehicle Park with 115 motor home/recreational vehicle sites, 463 campground spaces, 50 cabins, recreation facilities, clubhouse, dining room, kitchen, entertainment room and offices. The park would gain access through a pay point station off an extension of Vista Drive. This would be a membership park to accommodate membership owners for one to three week stays. Recreational activities would be provided for members through private providers. In addition to the RV sites and campgrounds, two large open grassy fields would be provided for group or team use.</p>	<b>NOD</b>	
2001122093	<p>Wild Goose Storage, Incorporated Expansion and Pipeline Project Public Utilities Commission Gridley--Colusa</p> <p>The California Department of Fish and Game is executing a Lake or Streambed Alteration Agreement number R2-2002-101 pursuant to Section 1603 of the Fish and Game Code to the project applicant, Jeff Carlson or Wild Goose Storage, Inc. Project proposes to expand existing storage and operational capacity at facility in Butte County, and construct 25.2 mile pipeline from its facility to connecting pipeline in Colusa County.</p>	<b>NOD</b>

SCH Number	Title / Lead Agency / City--County / Description	Document Type	Ending Date
<b><u>Documents Received on Monday, August 12, 2002</u></b>			
	following: 1) Grind and replace asphalt concrete (AC) on a section of pavement approximately 600 feet in length on the eastbound lanes. The pavement exhibits surface roughness due to subsiding fill. The repair entails grinding the existing AC and placing new AC surfacing. 2) Replace approximately 3,200 linear feet of metal beam guardrail (MBGR) on the north and south sides of the highway. The existing MBGR is worn and damaged and has non-standard end sections. The MBGR assemblies will be moved and replaced with modern MBGR assemblies. 3) AC dike beneath existing MBGR is in poor condition due to settling. Two 12-inch diameter steel down drains were washed out due in part to the poorly functioning AC dike. The existing AC dike will be removed and replaced. 4) The two damaged downdrains will be repaired or replaced. Damage is confined to the sections above the slop-joints. Inlet tapers and any broken anchor assemblies will be replaced. 5) A section of rockfall fence on the north side of the highway from approximately post mile 61.7 to 61.8 is filled with rock. The fence will be cleaned out and either reused or replaced.		
2002088180	Caltrans Maintenance Will Lay A Thin Blanket Caltrans #2 Redding-- Using federal funds Caltrans Maintenance will lay a thin blanket (30mm) over existing pavement at various locations within the project area. Grinding will occur at guardrail locations prior to laying the blanket. Work will be confined to the roadway hinges with storage and staging of equipment only at established pull-outs or paved areas. Grinding may only be stockpiled at PLU 70-9.0 Rt (Chambers Cr.) 17.5 Lt (French Bar Rd) & 22.5 Lt (RSP Quarry) and 33.5 Lt (Greenville Y).	NOE	
2002088181	California State University, Los Angeles--Campus Master Plan Revision California State University Trustees Los Angeles, City of--Los Angeles The action to be taken entails revising the existing Campus Master Plan to indicate a new location and configuration for a Science Building and several tennis courts. The tennis courts that occupy the proposed site for the Science Building are relocated adjacent to the track and field facilities in the revised Master Plan. Programmatic components of the Science Building would remain unchanged and thus no increase in enrollment capacity (FTE) would occur. (While the footprint for the Science Building in the existing Master Plan is smaller than that shown in the proposed Master Plan, the existing Plan contemplated a high-rise structure, while the proposed revision calls for a low-rise building.)	NOE	
2002088182	City of Solvang Water Well Maint. & River Bank Replacement & Restoration/Enhancement Project Fish and Game Santa Barbara Solvang--Santa Barbara Replace a 250 foot section of the river bank with native fill and revegetation to provide a buffer for a well and to comply with drinking water regulations.	NOE	
2002088183	Repair of Coyote Creek Dam Water Resources, Department of, Division of Dams --Lake Installation of a 24" diameter butterfly valve at the downstream end of the existing outlet pipe.	NOE

2002088188	Schneider Stream Corridor Improvement Project Trinity County Planning Department --Trinity This project is a stream corridor improvement project that will reduce bank erosion and sediment delivery to the South Fork of the Trinity River. Approximately 1,000 feet of the riverbank will be stabilized through the installation of a series of 5 rock stream barbs to the 1.5 year bankfull level. Revegetation will also further stabilize the slope. It is estimated that this project will prevent the delivery of at least an additional 75,000 yd3 of sediment to the South Fork during moderate storm events. This project will be built under the authority of the Natural Resources Conservation Service Emergency Watershed Protection Program (EWP). The primary objective of this project is the protection of the homes, a public roadway and public utilities at risk of loss due to bank erosion, including County Road 313 (Garrett Road) and power lines owned by the Trinity Public Utilities District. In addition, the reduction of fine sediment delivery to the South Fork will prevent degraded water quality conditions and protect salmon and steelhead trout habitat.	NOE	
2002088189	Reclamation District 2113-Fay Island Levee Maint. Project on Old River Fish & Game #2 --San Joaquin Streambed Alteration Agreement R2-2002-236. Levee maintenance and repairs of an existing facility. Project involves installing 6" minus quarry stone underneath buildings and behind an existing wooden bulkhead. 18" minus quarry stone will be used to repair the damaged levee slope sections on the east side of the Reclamation District. The project will also perform erosion repairs along the southside levee slopes at various locations from levee stations 54+00 to 77+00 by placing quarry stone riprap and embankment fill as needed. 2002088192	Lake Nacimiento Tributary Culvert Installation Fish & Game #3 Paso Robles--San Luis Obispo The project will remove approximately 25 cubic yards of sediment from an ephemeral channel, and place a corrugated plastic pipe culvert, 36 inches in diameter, and 20 feet long in the channel. Sediment removed from the channel will be placed over the culvert and distributed in the general vicinity of the channel. Issuance of a Streambed Alteration Agreement Number R3-2002-0145 pursuant to Fish and Game Code Section 1603.	<b>NOE</b>	
2002088194	Stenner Creek Fish Passage Weir and Culvert Apron Repair Fish & Game #3 San Luis Obispo--San Luis Obispo Repair of two fish passage weirs, and a culvert apron. At both sides, rock will be placed from top of bank. At site two, the flow will be diverted to seal the undercut apron. The project will improve migration access for southern steelhead. Issuance of a Streambed Alteration Agreement Number R3-2002-0161 pursuant to Fish and Game Code Section 1603.	<b>NOE</b>	
2002088195	Warner Creek Wood Retaining Wall Replacement Fish & Game #3 Mill Valley--Marin The ivy and failed wood fence will be removed first. Then the soil behind the failing wing walls will be removed and hauled off site and the two (2) wood wing walls will be removed. Silt fence will be installed to preclude construction debris from entering the creek. A total of four (4) piers will be drilled with four (4) steel I-beams and two (2) channel beams. The piers will be poured and pressure-treated wood lagging will be installed between the steel beams. The new wing walls will be backfilled with drain rock wrapped in filter fabric. The operator will replace the fence and landscaping. Approximately one (1) cubic yard of rock rip rap will be placed by hand directly below the culvert spillway to prevent further scouring. No silt or other construction debris will enter the creek during construction. Issuance of a Streambed Alteration Agreement Number R3-2002-0358 pursuant to Fish and Game Code Section 1603.	<b>NOE</b>

	constructed on each of the 48 lots. The proposed four multi-family lots range in size from 1.06 acres to 1.27 acres. As part of the Planned Development permit application, 90 apartment units would be built on the four multi-family parcels.		
2002062039	Glenshire Pipeline Installation Truckee Donner Public Utility District Truckee--Nevada The proposed project is to provide a water supply to the Glenshire subdivision that will comply with the 1986 Safe Drinking Water Act's (SDWA) maximum containment level (MCL) of 50 micrograms per liter for arsenic. The TDPUD is proposing to install approximately 12,600 linear feet of 16-inch water distribution pipeline to connect the Glenshire residential community with the TDPUD domestic water distribution system.	<b>NOD</b>	
2002062106	Donner Tract Water System Extension Truckee Donner Public Utility District Truckee--Nevada Extension of District's existing water system, including distribution pipelines, services, and fire hydrants, into the Donner Tract area to provide water service to approximately 43 lots.	<b>NOD</b>	
2002088211	ADA Modifications - Bidwell Canyon Campgrounds Parks and Recreation, Department of --Butte Rehabilitate two existing campsites (#65 and #75) in Big Pine campground at Lake Oroville State Recreation Area to provide ADA-compliant accessibility. Campsites will be leveled and graded, then receive additional pavement and walkways. Campsites will receive new accessible furniture and existing utilities will be upgraded to accommodate new facilities. In addition, two existing non-historic combination buildings will be removed and replaced with new accessible buildings. Project will improve visitor services, protect public safety, and support continued use and maintenance.	<b>NOE</b>	
2002088212	Nature Center Rehabilitation Parks and Recreation, Department of --Santa Cruz Rehabilitate exhibit areas of historic Nature Center at Henry Cowell Redwoods State Park to improve accessibility and visitor services and support continued use. Remove and replace front and rear entrance doors with new ADA-accessible doors. Remove two non-load-bearing walls located in lobby and rear entrance areas. Lobby's drop ceiling will be removed to expose the structure's original vaulted ceiling. Project will alter and/or remove non-historic elements of structure; proposed work will not impact historic fabric or integrity.	<b>NOE</b>	
2002088213	Electrical Extension to Combo Building #6 -Mill Creek Campground Parks and Recreation, Department of --Del Norte Install 300 feet of underground electrical conduit from existing supply box to Combo Building #6 in the Mill Creek Campground at Del Norte Coast Redwoods State Park to balance main loads on distribution system and provide for continued service to visitors during periods of peak use.	<b>NOE</b>

2002082048	General Plan Amendment 2002-04, Rezone 2002-13 & Tentative Map App. 2002-01-The Oaks at Orange Blossom Stanislaus County Oakdale--Stanislaus Request to amend the general plan from Agriculture to Low-Density Residential and rezone from A-2-10 (General Agriculture) to R-A (Rural Residential) to create a 77 lot subdivision with a park/basin lot on a 52.7 acre parcel.	<b>CON</b>	08/28/2002
2002082049	Use Permit Application No. 2002-06 - Daniel Bote Stanislaus County Ceres--Stanislaus Request to have a landscape business in conjunction with a wholesale nursery on 4.4 acres in the A-2-10 (General Agriculture) zoning district.	<b>CON</b>	08/28/2002
2002031157	Carpinteria Reservoir Retrofit Project Carpinteria Valley Water District Carpinteria--Santa Barbara The proposed project generally involves the retrofit of the existing Carpinteria Reservoir to eliminate sanitary defects and promote Reservoir circulation to maintain water quality. The proposed project involves the following components: Covering the Reservoir with a fixed structural roof, separating the reservoir inlet and outlet piping, installing Hypalon baffles to promote Reservoir circulation, design of roof support foundations for both structural and hydraulic integrity, remediation of subgrade settling near the existing inlet/outlet structure, correction of minor sanitary defects in piping and vent systems, and installation of a detention basin.	<b>EIR</b>	09/27/2002
2002082051	St. Vincent's Village Development Proposal and Silveira Property Land Use Evaluation San Rafael, City of San Rafael--Marin The proposed project includes an application for development of the St. Vincent's property with approximately 766 housing units, approximately 116,000 to 124,000 square feet of commercial office space, 5.1 acres of mixed-use development, a new 80,000 square foot campus on 18 acres for the St. Vincent's School for Boys, and recreational and open space land uses. The project would also result in the realignment of a segment of Miller Creek and relocation of the St. Vincent's School for Boys Equestrian Program Area east of the railroad tracks. Implementation of the proposed project would require annexation of both the St. Vincent's property and the Silveira property into the City of San Rafael. The actions associated with the proposed annexation would include consideration of a General Plan amendment and pre-zoning classification for the Silveira property to ensure consistency with the City's General Plan.	<b>NOP</b>	09/12/2002
2002081064	PA99-0186: 2000-2005 City of Temecula Housing Temecula, City of Temecula--Riverside The adoption of the 2000-2005 Housing Element for the City of Temecula in accordance with the provisions of State Law.	<b>Neg</b>	09/12/2002

1993081125	Mission Valley East Corridor Transit Improvement Project San Diego, City of San Diego--SAN DIEGO Council Approval for an amendment to the Navajo Community Plan to add the Mission Valley East Trolley Extension to the appropriate maps and text of the community plan. The project would include a new two-lane collector road extending Alvarado Canyon Road from its terminus at Mission Gorge Place easterly to Adobe Falls Road, bridging over Waring Road. The plan amendment also recommends that the realignment of the west end of Alvarado Canyon Road be studied and undertaken if feasible to move its intersection with Mission Gorge Road northward to align with the intersection of Fairmount Avenue with Mission Gorge Road.	<b>NOD</b>	
1993121105	North Park Redevelopment Plan Environmental Impact San Diego, City of San Diego--San Diego Council approval for a Disposition and Development Agreement for the Renaissance at North Park Project.	<b>NOD</b>	
1996032128	SITE "B" DEVELOPMENT PROJECT Oakland, Port of OAKLAND--ALAMEDA The proposed project consists of construction and operation of a multi-family residential development of approximately 300-housing units with resident support facilities on a 9.1 acre parcel at Jack London Square. The project buildings are three and four story structures with parking in centralized garage structures. An enhanced public access pathway along the Oakland Estuary and public access promenade along Alice Street will be components of the Project.	<b>NOD</b>	
2001052089	Petaluma Water Recycling Facility Project Petaluma, City of Petaluma--Sonoma The City of Petaluma, California proposes to build a new Water Recycling Facility to treat the community's wastewater and replace the existing wastewater treatment facility. The preferred alternative evaluated in the Final EIR is an extended aeration design with wetlands. This design includes a combination of biological and physical processes to remove organic material and pollutants from the wastewater. The facility would provide secondary treatment for an annual average flow of 8 million gallons per day (mgd), up to 4 mgd of tertiary recycled water for urban reuse, biosolids treatment to meet EPA Class B requirements for beneficial reuse, and wetlands for algae removal and effluent polishing. The design also includes a number of public education and recreation features. The existing wastewater treatment facility at 950 Hopper Street, Petaluma, would be decommissioned and demolished.	<b>NOD</b>	
2001071035	Kern River 2003 Expansion Project California State Lands Commission Barstow--San Bernardino, Kern Two new General Leases - Right of Way Use of State school lands for the construction, use and maintenance of a 36-inch diameter steel natural gas pipeline that will be used for transporting natural gas and the temporary use of a construction work area.	<b>NOD</b>

construction shall not impact the streambed. The operator shall mitigate by revegetating the stripped or exposed areas, approximately 1.17-acres, with riparian vegetation native to the area.

2002088236	Class 2 Permit Modification for Spill Vault Upgrades at IBM Corporation Toxic Substances Control, Department of San Jose--Santa Clara	NOE
------------	---	-----

This project consisted of the replacement of the existing single walled tanks located in the two waste vaults, with double walled tanks, the installation of new pumps, and the application of an epoxy coating to the vault floor and walls. In addition, a new tank has been installed in each waste vault to segregate and contain the bottle wash process water. The net result of the project is a significant increase in the spill containment capacity at Building 42.

2002088237	Revision to Three-Year Variance Issued to the City of Folsom Toxic Substances Control, Department of Folsom--Sacramento	NOE
------------	---	-----

Variance to the City of Folsom from hazardous waste facility and manifest requirements. The revised three-year variance authorizes the City of Folsom to conduct door-to-door(residential) collections of HHW and to manage abandoned/emergency response waste. The collections provide appropriate means for the elderly, handicapped, and others of disposing of hazardous waste in addition to managing the abandoned/emergency response wastes. The variance is based on the evidence that: 1) The collections will meet standards necessary for the safe handling of these household hazardous wastes. 2) Only personnel trained in hazardous waste management shall handle or package hazardous waste. 3) All collected wastes will be transported by a registered hazardous waste hauler for further management.
